A detailed close-up photograph of a vehicle's front suspension system. The image shows the lower control arm, steering knuckle, and shock absorber. Arrows point to various components labeled with numbers 1 through 10. The labels are as follows:

- 1: Lower control arm
- 2: Steering knuckle
- 3: Shock absorber
- 4: Lower control arm
- 5: Steering knuckle
- 6: Shock absorber
- 7: Lower control arm
- 8: Steering knuckle
- 9: Shock absorber
- 10: Lower control arm

A detailed black and white photograph of the Honda engine cover. The word 'HONDA' is embossed in the center of the cover. The image shows the surrounding mechanical components, including the cylinder head, various bolts, and hoses. In the top right corner, there are three small square icons and an arrow pointing towards the engine area.

A detailed close-up photograph of a mechanical component, possibly a bearing or a seal assembly. The central part features a circular hub with four smaller circular elements arranged around it. Various parts are indicated by white rectangular labels with black outlines and leader lines pointing to specific areas. The background shows other mechanical parts, including what appears to be a gear or another bearing.
